An apple's color is sometimes red, sometimes green. There is a red one fallen near the green car.

The car is parked near a red bus. Green is a nice color. Leaves are green, so are traffic lights when they

say go. I like to drink green tea. Green tea is a refreshing beverage. I am waiting for my red bus at the bus stop.

I hope the bus arrives in time. Bus service is a mass-transit system. There comes the bus; I will get on to the bus and leave.
